

QDialog

```
graph BT; send_mail --|> QDialog
```

The diagram illustrates a generalization relationship between two classes. At the bottom is a box labeled 'send_mail' with a thick black border and a light gray fill. A solid blue arrow points vertically upwards from the top center of the 'send_mail' box to the bottom center of a box above it. The box above is labeled 'QDialog' and has a thin gray border and a white fill. This represents 'send_mail' inheriting from 'QDialog'.

send_mail
